

# City of Phoenix Water Services Department

Project No. WS85500443

## THOMAS ROAD Transmission Main Rehabilitation

July 2017

**City of Phoenix**  
WATER SERVICES DEPARTMENT  
Quality Reliability Value

### Project Overview

Due to the age of the existing water transmission pipe, the City of Phoenix Water Services Department and PCL Construction will be rehabilitating the existing pipeline located in Thomas Road from 44th Street to 64th Street. (See map below)

The City will rehabilitate the waterline using the pipe sliplining method. Sliplining is a trenchless construction method, where a new pipe is inserted into the existing pipe from access portals, minimizing impacts to the traveling public and business access.

Water Service is not anticipated to be disrupted. However, residents and businesses will be notified if any water service interruptions occur.

### Construction Activities

**Start:** Construction will begin in July 2017

**Anticipated Completion:** June 2018

**Work Hours:** 7 a.m. - 5 p.m. Monday - Friday

There may be no activity observed at some of the access portal locations, while work is on-going at other locations.

Traffic control and lane restrictions will occur around each access portal area. For your safety, please observe construction barricades and signage at all times! Please use alternate routes when possible and allow extra time when traveling in these locations.

We are committed to proactive planning for the needs of our community.

We are committed to wisely using our water resources and protecting and enhancing community health and our natural environment.

We are committed to a highly reliable water system and water supply. Proactive inspection programs minimize disruption and improve quality of life for Phoenix residents.

We are committed to open communication and working together with the community during construction.

We appreciate your support and realize that this project may be of some inconvenience in the short-term, but will provide long-term water services for you and your neighbors.
